Library List No. 76

NATIONAL AGRICULTURAL LIBRARY
United States Department of Agriculture
Washington, D. C.

PREFACE

The National Agricultural Library is issuing this international list of veterinary medical periodicals as a contribution to the Second International Congress on Medical Librarianship, sponsored by the National Library of Medicine.

The list includes all veterinary periodicals currently received in the National Agricultural Library as of May 1963. The term "periodicals" has been defined loosely to include irregular serials and annual reports of veterinary medical societies, as well as regular magazines. However, annual reports of veterinary societies and colleges, and house organs which do not publish articles on veterinary medical research or practice, have been omitted.
